Description

The Peplink Mobility 22G is a 5 in 1 antenna built for mobile applications. It supports 2x2 cellular MIMO for high bandwidth and solid reliability, dual-band (2.4GHz & 5GHz) Wi-Fi and GPS. It is also 5G ready and supports a wide range of global cellular frequencies. The GPS antenna is equipped with high gain LNA, making it ideal for location tracking.

The Mobility 22G has a solid housing made of UV stable plastic materials. Two color options are available (black and white) to fit different deployments. For easier installation, the antenna comes with different cable length options.

Applications

- Public Safety and mission critical connectivity
- Mobile healthcare
- Transportation Connectivity

Notes

- Cover panel surface to protect the paint work. When drilling a hole, start with a small one, then increase it.
- Cut out diameter should be 1 11/16" / 43mm. Maximum allowed panel thickness - 15mm.
- After a drill clean up the surface and apply some paint around the hole to prevent corrosion. Attach the antenna.
